

### Remarks

Applicant has provided an amended paper copy and an amended computer readable form of the sequence listing. The only amendment made to the sequence listing occurs in SEQ ID NO:7. The following field has been amended from:

<220>

<221> THIOETH

<222> (6) .. (21)

<223>

to:

<220>

<221> THIOETH

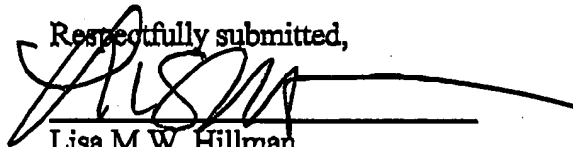

<222> (16) .. (21)

<223>

Support for the amendment can be found in the specification at, *inter alia*, Table 2 and SEQ ID NO:6. This amendment merely corrects a typographical error and adds no new matter. The sequence listing information recorded in computer readable form is identical to the written paper sequence listing. Applicant respectfully requests entry of this amendment.
